

# Cannabis and Related Processes Survey

---

## Start of Block: Consent

This research project is being conducted by XXX from XXX. This project seeks to learn about new ways people are using marijuana and different forms of marijuana. This specific survey will examine marijuana use, reasons for use, and thoughts and feelings associated with marijuana use. The survey will also provide us with novel information related to unique aspects of marijuana use and associations with other types of common health behaviors.

The survey will take less than 10 minutes to complete. You must be 18 years or older to participate. Participation is entirely voluntary and you may stop at any time. You may choose to not answer any or all questions. We will be asking you potentially sensitive questions (e.g. about your use of marijuana).

We take your privacy seriously. Here is how we protect it. If you agree to take the survey, you will automatically be assigned a random study ID (for example: Rx35D4fs57d9) so that your responses are confidential. This means that no one, not even us researchers, can connect you or your name to the answers you give on the survey. We will not ask you for things like your name, phone number, or social security number. We will not record your IP address.

Questions about this project may be directed to:  
XXX

Your participation and honest answers are appreciated.
